RAM

CHRYSLER MILLENNIUM FACILITY PROGRAM

We are an Approved Dealer for the Chrysler Millennium Facility Program.

We have 15 Years of experience working with Manufacturer Image Programs and Automotive Dealerships. Our division understands the Dealership Programs so we ensure the Dealer receives the Manufacturer's incentives.

Working Directly:

We appreciate how much time and effort goes into creating Manufacturer Image Programs. Working directly with the dealer is the most adequate way to deliver a cost-effective furniture solution that works for all parties. Through our experience, we have developed a unique knowledge-base of how dealerships work and are designed. Interior Environments represents over 300 furniture lines that provide the Automotive Dealerships cost savings.

Strategically Designed Automotive Spaces:

Automotive Dealerships require a high standard of design and finishes that can withstand the unique environment. The furniture has extended warranties that last the test of time. That's why we strategically select and design the following areas just for Dealerships.

- Administration Areas
- BDC
- Cafe Areas
- Conference/Training
- Customer Lounges
- F&I
- GM
- Parts Management
- Sales Workstations
- Service Advisors
- Service Manager Stations
- Tech Break Areas

Feedback:

When the project is completed, we meet with the Dealership Owner and appointed contact on-site to review the final design and receive feedback. This step allows us to discuss what worked and where we can improve next time. All three strategic partners can come together and share feedback for one another so we can continue to perfect the spaces.

YOUR DEDICATED CDJR MILLENNIUM TEAM

Steve Cojei, President & Owner
Years Experience | 18 years
Favorite TV Show | Survivor, Law & Order
Favorite Quote | "We will figure it out!"
